To Whom It May Concern:

Mottin Golf Course Renovation, LLC and more importantly their owner Doug Mottin, have been doing renovation work at Eagle Oaks Golf and Country Club over the past year.

My background includes working for Robert Trent Jones Sr. as a shaper and project manager. When I was reviewing potential companies to do our "out of house" work, Doug's name was brought up. After reviewing his past projects and spending time with Doug, I knew he and his company paralleled the quality of construction and people I was used to working with.

Doug and his crew did everything we asked of them and did it in a timely fashion all the while exemplifying professional business practices, flexibility in scheduling, and quality of work.

I would not hesitate to recommend Mottin Golf and Doug Mottin for any golf course project. If you would like to discuss Doug and his company further I would be happy to do so and can be reached at (732) 938-5081.

Sincerely,

Marty Sommerfeld
Golf Course Superintendent
