

RIVERCREST

Golf Club & Preserve

To whom it may concern,

I have worked with Doug Mottin for 7 years on various construction projects at two different clubs and he has always been consistent in his approach of providing quality work while accommodating the hectic schedule of modern clubs.

Mottin Golf Course Renovations was created with experienced professionals who understand the importance of the project at hand, while also leaving the surrounding area in immaculate shape. No matter what the scale of the project, the result has always exceeded my expectations. Doug's expertise in the field coupled with his professional business practices provide the club with the best product at the lowest cost.

I would recommend Mottin Golf Course Renovations for any project you are considering. Please feel free to contact me with questions 484-844-7317 or sdb@rivercrestgolfclub.com

Respectfully,

Scott Bordner
Golf Course Superintendent
