

SUBURBAN GOLF COURSE
An Original A.W. Tillinghast Design

March 21, 2011

To whom it may concern:

I have worked with Mottin Golf Renovations, LLC in the past on other projects so I was not hesitant to use his services at Suburban Golf Club. Doug and his highly experienced crew renovated several of our bunkers. The project was finished in a very timely fashion with no collateral damage.

I would highly recommend Mottin Golf Renovations, LLC for any golf course, no matter the scope of the work. In fact we are currently working on a master plan for renovation of all our bunkers and tee leveling largely due to the positive feedback of Doug's work. If there are any questions feel free to contact me (908) 787-7899.

Sincerely,

Frank Henshaw
Golf Course Superintendent
Suburban Golf Club
