

March 31, 2014

To Whom it May Concern,

I am writing this letter as a reference for Mottin Golf regarding the bunker renovations they completed at Waynesborough Country Club. Doug and his team diligently completed an 18-hole bunker renovation at Waynesborough Country Club starting in May 2012 and concluding in September 2012. The project included construction of 65 bunkers, a 6,000square foot par-3 green, multiple contour changes to fairways, and the addition of 9,000 square feet of green surround bentgrass chipping areas. Though the task of completing this amount of work was not easy, Doug and his team made every effort to make the construction process run smoothly. The end result is of exceptional quality and though not the industry standard, I would not hesitate to do the same work in the future during the summer months.

By completing our project during the summer months, Doug was able to allot substantial labor and equipment to our job site. This allowed thorough and efficient completion of 2-3 holes at a time which helped limit the area of disturbance and therefore minimally effect the golfing experience. The Waynesborough membership was understanding regarding the construction process and accepted the minor inconveniences that come along with a project of this scope.

We did not want to compromise course conditions in order to complete the project; the addition of 2 staff members helped to achieve this goal. These additional laborers aided in watering of the new sod on a regular basis and ultimately allowed other course conditioning to remain at a high level.

Mottin Golf has completed many other projects at Waynesborough following the bunker renovation work in the summer of 2012. In my experience if you choose Mottin Golf you will be impressed with their quality of work and "whatever it takes" attitude in getting the job done right. I wish you and your club the best of luck with your upcoming project.

Should you require any further information or would like to visit Waynesborough to evaluate the project please feel free to contact me any time.

Sincerely,

Ben Kovacs
