To Whom It May Concern;

I have worked with Doug Mottin for over 8 years both in Philadelphia and now at Woodway Country Club in Darien, Ct. Doug's hands-on experiences at some of the top club's in the country are what make him so successful. His commitment to succeed regardless of the circumstances and attention to detail clearly distinguish his work.

Mottin Golf is a complete operation consisting of extremely knowledgeable superintendents and state of the art equipment. Unlike many companies, each member of the Mottin Team is interchangeable, especially considering Doug's personal presence overseeing each operation. The staff is easy to work with and understands the role of each stakeholder within the scope of the project. This allows for a very smooth process that is communicated and well thought-out, resulting in a superior finished product.

I would recommend Mottin Golf for any golf course renovation project your club may be undertaking. Their commitment to excellence and personable approach to their work is unmatched.

Sincerely;

Jamie E. Kapes
Property Manager/Superintendent
Woodway Country Club
Darien, Ct
